Bast Floors & Staircases expands services to include tile and natural stone.

Bast Floors & Staircases, 8506 Sunstate St. in Tampa, which has been involved in Florida's wood flooring industry for more than 20 years, has expanded its scope of services to include natural stone and tile. Through its new division, Bast Floors & Staircases designs and installs natural stone and tile walls and floors for every room of the home including kitchens, laundry rooms, bathrooms, living rooms, and bed-rooms. Bast also offers buffing and restoration, as well as grout and sealant services. Bast sought after some of the best craftsmen in the natural stone and tile industry. Unlike most flooring companies, Bast craftsmen specialize in one service, continuing the family tradition of employing true craftsmen uniquely skilled in their trade.

In its hardwood floor division, Bast offers installation of solid and engineered products; repairs and restoration; sanding, staining, and refinishing; and water damage repair.

The Custom Staircase division of Bast Floors & Staircases offers clients the ability to create a one of a kind masterpiece in their home. Bast craftsmen specialize in both wood and wrought iron staircases inside and outside the home. Staircase services include: design and build, rough framing, and construction and installation of custom free-standing staircases.

Bast is licensed and serves these Florida counties: Charlotte, Citrus, Collier, Hernando, Hillsborough, Lee, Manatee, Osceola, Pasco, Pinellas, Polk, Sarasota and Sumter.
